Mar.
2016
|
Aug.
2016

Math and Science Writing Intern

Brilliant.org (STEM education startup with 4 million users)

📍 Worked remotely

- Wrote 60+ educational computer science wiki pages and practice problems used by students of all ages.
- Provided feedback and peer reviewed other writers' pages on a weekly basis.

PROJECTS

Spring
2017

EatSafe

User Interface Design and Implementation 6.813 Project (team of 4)

📍 MIT

- Designed a functioning front-end UI for a recipe conversion app for users with food allergies.
- Wrote front-end code using JavaScript/jQuery, HTML, and CSS.
- Focused design on usability, learnability, safety, accessibility, and other design principles.
- Conducted multiple rounds of prototyping and user testing.

Jan.
2017

Tutoring Scheduler WebApp

Code for Good 6.S187 Project (team of 4)

📍 MIT

- Worked with an education non-profit Pax Populi to build a scheduling web app to create user profiles and schedule tutor-student video calls.
- Wrote server-side code using Node.js, MongoDB, and Express.js, and client-side code using Angular.js, Handlebars, HTML, and CSS.

Fall 2017

StitchHub

6.170 Software Studio Final Project (team of 4)

📍 MIT

- Made a web app for designing and sharing knitting patterns.
- Used Node.js, Express.js, JavaScript, MongoDB, and HTML/CSS.
